

Gurwin Jewish Nursing & Rehabilitation Center

WEEKLY UPDATE AND VISITATION INFORMATION

Tuesday, October 27, 2020

5:00 PM

Dear Gurwin Residents and Family Members:

As we continue to communicate, and in particular as we highlighted last week, our staff is tested weekly for COVID-19, and continues to have a positivity rate much lower than the rate of community spread in Suffolk County. Unfortunately, that does not preclude us from having a staff member test positive, and we regret to inform you today that we had a positive test result reported for an employee this morning. As you know, this positive result affects our In-Person Visit date, as determined by the NY State Department of Health (DOH), which is now moved to November 13 due to reporting requirements and surveillance testing protocols for our residents. Again, any positive result requires at least an additional 14 days of no visitation as well as two rounds of precautionary surveillance testing for all residents.

Although our In-Person Visit target date has been postponed, we continue sign-ups for an expanded Drive-Up Visit schedule. Families are able to schedule three Drive-Up Visits per month at this time. Should we move to In-Person Visits on November 13, one Drive-Up visit may be converted to an In-Person Visit; please look for information as we get closer to our opening date. To access the sign up, visit bit.ly/GurwinVisits.

Guidelines you will need for In-Person and Drive-Up Visits can be found on our [website](#).

We are required by the DOH to inform you of the status of COVID-19 in our facility, and we do this weekly or as necessary if there is new information to report, such as a new positive case or a loss. We currently have no residents in-house who are positive for COVID-19; throughout the pandemic, we have had more than 150 of our residents recover from the disease, and unfortunately had 61 residents lose their battle with the virus. Our staff is tested weekly, and since the pandemic began in March, we have had 150 staff members test positive for the virus, the majority of whom have been asymptomatic. Any employee testing positive is required to quarantine for 14 days, and may only return to work after a negative clinical test for COVID-19.

Please be assured you will be promptly notified if your loved one is identified as a suspected or positive case of COVID-19 or has any other significant change in

condition. You will find past Family and Resident Updates on our website at www.gurwin.org/family-updates/ should you need to access them.

We thank you for your understanding and cooperation during these challenging times. Please know our priority is the health and well-being of your loved one.

Sincerely,

The Gurwin Care Team

Video Chat with your loved one: email videochat@gurwin.org to request a time. (Limit one per family per week, please.)

Send your loved one a Gurwin Gram Gram. Send a short video to us via Facebook Messenger or by email to info@gurwin.org, and we'll deliver your good wishes.

Go to bit.ly/GurwinVisits to schedule a 10-minute Drive-Up Visit or a 15-minute, socially distant In-Person Visit.

Visit our [website at www.gurwin.org](http://www.gurwin.org) for Frequently Asked Questions and other updates on COVID-19.
