Dear Lindner Residents and Family Members:

I am writing to inform you that we learned today of positive COVID-19 test results for four of our staff members. Due to recent testing as well as current quarantine restrictions, no additional residents will need to be placed on quarantine due to these new positive results.

Today was our first COVID-19 vaccination clinic here at Lindner for our residents and staff. I will be able to report exact numbers in a day or so, but we are very happy to note that the vast majority of our residents were able to receive the first dose of the vaccine, as well as more than half of our staff. This is a great first step in getting everyone vaccinated, and our next clinic, we are sure, will be even more successful. Should you have any questions, you can feel free to reach out directly to me; otherwise, you can find further information on our website at https://www.gurwin.org/vaccine-at-lindner/

Sincerely,

Michael Letter
Administrator/COO
