Dear Lindner Residents and Family Members:

I am writing to inform you that we learned today of positive COVID-19 test results for two employees, which was found through our weekly surveillance testing of staff. One employee is not part of our direct care staff; however, the other employee has contact with our EP residents, and as such, the unit will be quarantined for 10 days, retroactive to their potential exposure on January 2. We have already swabbed the entire EP unit, and all results are negative. We will test them again at the end of the 10-day period, and will hopefully be able to lift the quarantine for our EP residents at that time.

In some better news, we were able to lift the quarantine for another 30 residents who had previously been restricted because of exposure, and are hoping that more will follow in the coming days. Be sure to review the COVID-19 Vaccine information with your loved one, to ensure that anyone who would like the vaccine is signed up for our first clinic on January 18. Residents and staff will receive the first dose of the two-dose Pfizer vaccine at that time; as a reminder, consent is required for all residents who wish to receive the vaccine. For more information, or to obtain the consent forms, visit https://www.gurwin.org/vaccine-at-lindner/

As always, please reach out to any member of my team should you have any questions or concerns.

Sincerely,

Michael Letter
Administrator/COO

It's flu season! Be sure to get your flu shot today!

Schedule a Visit or virtual Video Chat with your loved one: email fayjvideochat@gurwin.org to request a time. (Limit one per family per week, please.)

Send your loved one a Gurwin Gram Gram. Send a short video to us via Facebook Messenger or by email to info@gurwin.org, and we'll deliver your good wishes.

If you are interested in donating to our COVID-19 Relief Fund, visit our website at www.gurwin.org/donate. Thank you.
