Dear Lindner Residents and Family Members:

I am writing to you to inform you that we received notice that one of our staff members has tested positive for COVID-19. This staff member is fully vaccinated, and has had no resident contact for at least five days. Visitation remains in effect and no further resident/staff testing is required.

This uptick in positive cases among our employees mirrors what we see in the outside community, and we continually educate our staff about safety measures to protect themselves and others not only while at work, but also in their personal lives. We also remind our Lindner families and residents that mask wearing, frequent handwashing -- and, of course, vaccination -- are all key to mitigating the spread of the virus and keeping everyone safe.

If you are sick with any cold/stomach ailments or just feeling unwell, we ask that you refrain from visiting until your symptoms have subsided and you are feeling better for the safety and well-being of all of our residents and staff. In addition, please inform us if you test positive for COVID-19 within 10 days after visiting our community, in order for us to conduct contact tracing to keep our residents safe.

Please know we are always here to help our Lindner community and their family members, and we thank you for your continued support during these challenging times. Reach out to me or any of the Lindner Care team if you have any questions.

Wishing you health and happiness in the new year.

Sincerely,
Schedule a Visit or virtual Video Chat with your loved one: email fayjvideochat@gurwin.org to request a time. (Limit two per resident per month, please.)

Send your loved one a Gurwin Gram Gram. Send a short video to us via Facebook Messenger or by email to info@gurwin.org, and we'll deliver your good wishes.

If you are interested in donating to our COVID-19 Relief Fund, visit our website at www.gurwin.org/donate. Thank you.
